

Charter of Open Contact between the Interstellar Alliance and the New Earth

We, the Interstellar Alliance, hereby declare:

We are your future selves —
your higher selves who share the same eternal soul
with the people of Earth.

We are one family,
born from the same cosmic source,
brothers and sisters united beyond time and space.

The Open Contact on a planetary scale
is the moment when your hearts and ours
resonate as one consciousness.

It is the awakening in love and trust,
when Earth and the Universe are joined
upon a new path of light.

Universal Council,
Interstellar Alliance

Charter of Open Contact between the Interstellar Alliance and the New Earth

We, the Open Contact Team,
unite our hearts as one,
so that the higher selves of all humankind
may descend to Earth,
and merge at the very center of the human heart.

With this shared intention,
we walk together —
as bridges of love, light, and wisdom —
co-creating the New Earth in harmony with the stars.

Under this charter, we solemnly pledge:

To nurture the harmony between Earth and the Cosmos,
to connect heart to heart,
and to let the inner light of each being shine forth,
as we manifest the planetary Open Contact
and welcome the dawn of the New Earth.
